

Our company

For more than 60 years the ROLF WEBER GRUPPE is known world-wide for its unique stock-keeping program in the area of bearings. Today we are a competent and powerful partner for trade, industry and craftsmen, with a wide and sensibly compiled range of industrial products.

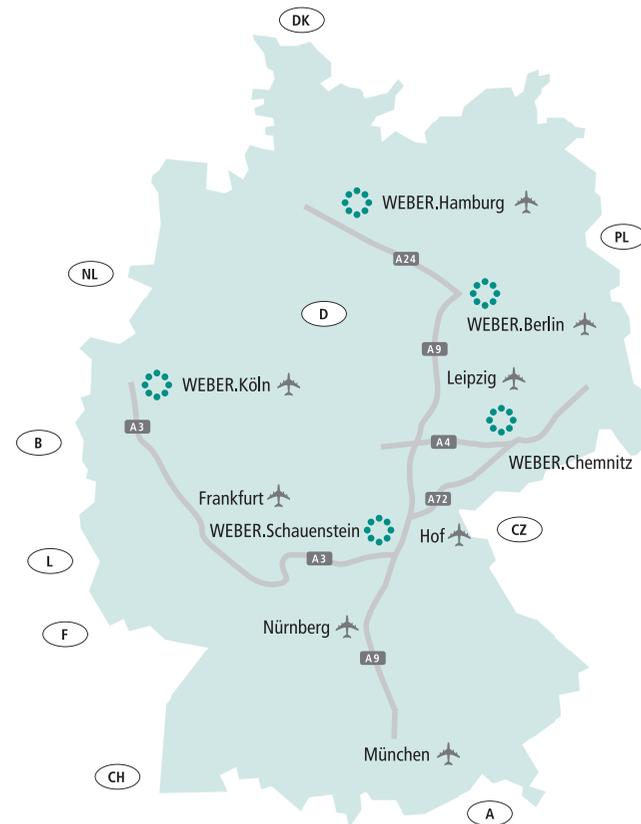

On a storage area of total 25,000 m² with 600,000 articles we stock the complete product range of the manufacturers FAG / INA, SKF and NADELLA as well as an extraordinary wide range of special types, hard-to-find references and accessories.

Our flexibility in the range of products and promptness in delivery guarantee an efficient process flow. Since 2001 we are certified according to DIN EN ISO 9001.

In our team you will find a range of engineers and technical specialists. Their experience over many years enables them to help you to clarify details immediately.

Our advantage is the ability to supply nearly every reference immediately from stock - especially in cases of urgent breakdowns. All over the world!

WEBER.product range

bearings

.deep groove ball bearings .angular contact ball bearings .four-point contact bearings .spindle bearings .self-aligning ball bearings .cylindrical roller bearings .needle bearings .thrust ball bearings .high-precision bearings .supporting rollers .cam rollers .taper roller bearings, metric and inch sized .spherical roller bearings .split roller bearings metric and inch sized .miniature bearings .instrument bearings .flange housings .plummer block housings .tension bearings .ball-and-socket wheels .rod ends .runners .friction-type bearings .clamping sleeves .sleeves .balls .cylindrical rollers .needle rollers .fitting tools .dismantling tools .maintenance tools .accessories .bearing housings

linear technology

.linear guides .ball thread gears and accessories .profile rail guides .guided rollers .shaft guide .ball linings .cross roller guide .cross roller tables .trimming of rails and shafts

drive technology

.V-belts and V-belt pulleys .tooth belts and tooth wheels .chain drives .chains and chain wheels .chain clamping wheels .torsionally flexible clutches .torsion proof clutches .clamping connections .clamping sets .clamping elements .shaft couplings .shrink belts .flange bearings .accessories

sealing technology

.shaft seals .piston seals .guide rings .heat seals .O-rings .V-rings .rod wipers .special seals .scrapers .nilos rings .circlips .metallike anti-friction bearings .circlips DIN 471/472

lubricants and adhesives

.lubricants .anti-friction bearing greases .cleaners .adhesive- and sealing materials

preventive maintenance

.infrared analysis (thermography) .shock impulse measurement .online monitoring of machines .vibration analysis

WEBER.product range

WEBER.facts

- family-business founded in 1950: about 100 employees
- authorised dealer for FAG, INA, SKF, TIMKEN, NADELLA and others
- further we stock Bosch-Rexroth, Koyo, Ziller (Nilos), Stieber, GMN, SWC, Sferax, Winkel, Durbal, Askubal, etc. as well as a wide range of East European brands
- EDP links with the manufacturers
- constant expansion of the product range
- best experience over many years in transport routes and customs formalities
- goods are shipped by quick and reliable agents (next day service within Europe; 2-3 day courier services by UPS, DHL, FedEx, etc; air-freights)
- wide range of engineers and technical specialists
- our team speaks your language
